

Complete Turn-Key Packages

Convenience / Expertise / Single-Point Accountability / Peace of Mind

Let SAMCO remove the hassle from your next project.

We believe that the most efficient and cost effective way to complete a project is to use a company that can provide a complete Turn-Key Package. SAMCO has the staff and the expertise to complete your water or wastewater treatment project from conception to completion. Working with us brings the following benefits:

- Buying Direct from SAMCO (the Manufacturer) = Low cost.
- Single point accountability.
- Compact designs for small footprint.
- Ability to meet tough schedule demands.
- From problem analysis to solution we deliver the best value.

Our temporary and permanent packages deliver value in a host of applications...

Here is a small sample:

Superfund Groundwater Remediation, Construction Water Management, Government & Military Use, Landfill Leachate, Industrial Metals Removal, Ion Exchange, PCB Removal, ZLD (Zero Liquid Discharge), Recycle / Waste Minimization and Semiconductor Acid Waste Neutralization.

Our Turn-Key Packages range from providing complete water treatment systems that can be installed in your existing building, mobile trailers, or a new building that we provide. We can even provide tank farms for these systems.

- ♦ **Treatment Packages** – State of the art technology integrated using SAMCO's unique and cost effective system:
Products + Integration = Complete Systems
- ♦ **Permanent Packages with Building** – Cost effective treatment systems coupled with efficiently sized pre-fabricated buildings offer initial cost and ongoing operation savings.
- ♦ **Portable Packages** – Available for quick mobilization or for multiple site uses.

“...to create better quality of life by purifying water.”

Let **SAMCO** use our expertise to save you time, money and aggravation on your next project!

SAMCO can provide application briefs that describe many of the systems we have delivered. Here is a brief sample...

Metals treatment plant for a fortune 500 manufacturer.

Packaged treatment plant in pre-fabricated building.

Our Secret:

Products + Integration = Complete Systems

- **Products:** We manufacture our products keeping overhead and your costs low.
- **Integration:** We have the technical understanding to integrate the products through experience, testing and a time proven approach.
- **Complete Systems:** Our complete systems represent the integration of easy to install skids and complete turnkey packages in the smallest, yet accessible footprint possible.

Our approach saves on long design cycles and delivers your project in the most efficient way possible!

Ion Exchange system for a Superfund site.

Convenient skid mounting for easy and cost effective installation .
